

CHANGES IN BUS ROUTES OR STOPS

P3706

The School Committee is committed to ensuring safe and efficient transportation for Westford students. Therefore student safety, the numbers of students involved, and time constraints will be criteria considered in any decision to change a bus route or stop.

Requests for changes in bus routes or bus stops will be heard by the Superintendent or designee, the bus contractor, and the Police Safety Officer with the final decision being given in a timely fashion to the requestor.

A request for a change in a bus route or stop may be considered by the School Committee only after the aforementioned process has taken place.
