

FIELD TRIPS

P6120

The School Committee encourages off-site educational experiences that expand the school curriculum and that also educate the whole child. Such experiences are viewed as class time in another location. It is the responsibility of each Principal to assure that such student experiences are thoroughly planned in the interest and protection of the pupils involved and that the behavioral expectations are the same as in the classroom. Educational alternatives will be provided to students who do not attend a field trip.

The Principal and Director of Curriculum will approve or disapprove any field trip request.
