

Philosophy and Mission Statement

We believe that the educational process is the shared responsibility of all members of the school community. We are committed to creating a climate of universal respect among members of our community. Within this climate, each child learns to be a responsible, life-long learner. It is our goal to provide high quality early childhood education in a warm, nurturing atmosphere. We believe that every child has unique skills and we are dedicated to helping each child develop these skills and reach his or her full potential. Our program offers the benefits of experienced staff and individualized curriculum that meets the Guidelines for Preschool Learning Experiences.

Inclusive Education for children 3-5 years of age

Our inclusive preschool programs include both children who require specialized instruction and children who have no identified learning needs. Inclusive education seeks to provide meaningful education to the range of students in our communities by drawing strength from their diversity.

The curriculum is based on the Massachusetts Pre-kindergarten Common Core State Standards. We utilize the OWL Curriculum from Pearson as a framework to guide our work with the children. Lessons are taught that address social and emotional skills, play skills, self help skills, communication skills, gross, fine and visual motor skills, and cognitive skills.

Program Options for 2017-2018 school year:

Westford Integrated Preschool offers a variety of program options for children, in order to meet the needs of each family. Our programs are fully integrated, and typically staffed by one teacher and two teaching assistants. In addition, a speech and language pathologist and an occupational therapist often spend time in the classrooms working with all students.

Children are eligible to enroll upon or the day after their third birthday. Enrollment is rolling providing a spot is available.
